

## Sources

NATSPEC refers to documents produced by many organisations other than Standards Australia. A number of these organisations are Australian but many are based overseas. Some of the latter have Australian agents, some of the former have outlets only in one state. This web list is the key to many of the sources for these documents. Where possible an Australian source is listed. Information given in this document is believed to be correct at the time of printing - please advise us of any changes or errors you may come across.

This list includes references from all NATSPEC and AUS-SPEC specifications:

Organisation	Web address

## CORPORATE INFORMATION

---

NATSPEC is the trading name of Construction Information Systems Limited, ABN 20 117 574 606.

NATSPEC, founded in 1975, is a national not-for-profit organisation that is owned by the design, build, construct and property industry through professional associations and government property groups. It is impartial and is not involved in advocacy or policy development.

NATSPEC's major service is the provision of the comprehensive national specification systems endorsed by government and professional bodies. NATSPEC, the National Building Specification, is for all building structures, with specialist packages for architects, interior designers, landscape architects, structural engineers, service engineers and domestic owners. AUS-SPEC is the Local Government specification system for the life-cycle management of assets. Packages include Urban and Open Spaces, Roadworks and Bridges, Public Utilities, and Maintenance. NATSPEC is also the publisher of the National BIM Guide and associated documents.

NATSPEC's objective is to improve the construction quality and productivity of the built environment through the leadership of information.
